

OUR ENVIRONMENTAL POLICY

Ensuring the continuity of the life cycle, together with Doganlar Mobilya Grubu and its six sub-brands, sharing the same values and commitment to high quality under one roof, ranks among our indispensable values. As a pioneering company in the sector with its practices and approaches, and in order to leave a more liveable world for future generations, we commit to:

- ◆ Complying with national and international legal regulations applicable to our company with regard to the environment, as well as the expectations of our relevant stakeholders,
- ◆ Periodically analysing the environmental impacts of our operations within the framework of the "Sustainable Development" approach and continuously improving them,
- ◆ Ensuring compliance with our objectives and context, including the environmental impacts of our suppliers, subcontractors, retailers and all recyclable stakeholders involved in our products; implementing measures to prevent pollution at source, starting from the project design phase, and applying waste reduction and, wherever possible, recovery methods,
- ◆ Taking the necessary measures to reduce our energy and water resource consumption in a sustainable manner for the continuity of our operations, setting annual targets and monitoring sustainable development,
- ◆ Planning and implementing measures to minimise environmental damage that may occur in the event of any undesired incident or emergency during our activities,
- ◆ Carrying out training activities to spread environmental awareness and responsibility among all our stakeholders and to instil individual accountability,
- ◆ Establishing a framework of our policy for the determination of environmental targets.
